Professional

Communication, Time Management, Problem Solving, Group Work

Projects

Watchopedia

Project Team

Member

GitHub: <https://github.com/felipezintzun/watchopedia> | Deployed Project:

<https://felipezintzun.github.io/watchopedia/>

- Gives users who are unsure about what to watch an easy way to search for actors, movies, or television shows.
- Responsibilities included populating the actor section, creating the input and dropdown lists, and linking the API's to the correct sections.
- Tools/Languages: HTML, CSS, Bulma, JavaScript, TVMaze, The Movie Database

Weather Dashboard

Project Leader

GitHub: <https://github.com/nicnolen/weather-dashboard> | Deployed Project: <https://nicnolen.github.io/weather-dashboard/>

- Enables users to quickly search a city and get the current weather conditions and a five-day forecast for that city.
- Responsibilities included designing the website, creating an API request, and appending the information to the page.
- Tools/Languages: HTML, CSS, Bootstrap, JavaScript, Moment.js, Weather Dashboard

Work Scheduler

Project

Leader

GitHub: <https://github.com/nicnolen/work-scheduler> | Deployed Project: <https://nicnolen.github.io/work-scheduler/>

- Allows users to keep track of their workday schedule by inputting a task in a time slot that is colored based on if the time has passed, is current, or is in the future.
- Responsibilities included creating and styling each time slot and using Moment.js to display the current date and time at the top of the page.
- Tools/Languages: HTML, CSS, Bootstrap, JavaScript, jQuery, Moment.js, FontAwesome, Google Fonts

Work Experience

The Home Depot

2021

Electrical Associate

Bee Cave, Texas

- Awarded 3 Homer Awards for going above and beyond the call of duty.
- Aided people affected by Hurricane Nicholas by making over 400 hurricane relief kits.
- Regularly worked in 7 departments when the store was short-staffed to ensure customer satisfaction.

Balcones Resources

2018

Intern

Austin, Texas

- Displayed programming expertise and innovativeness by updating Fleetmatics, increasing truck efficiency.
- Mapped out over 300 competitors through Google Maps to establish ideal spots to build a new recycling plant.
